Summary

Motivated Backend Developer with hands-on experience in Java, Spring Boot, and MySQL through academic projects and internships. Strong in Core Java, OOP, Collections, Exception Handling. Skilled in developing RESTful APIs, CRUD operations, and Spring Data JPA/Hibernate. Passionate about building clean, efficient, and scalable backend applications.

Technical Skills

Languages: Java, SQL

Frontend: HTML, CSS, JavaScript, React.js, Bootstrap, Tailwind CSS

Backend: Spring Boot (Spring MVC)

Database: MySQL (with JPA/Hibernate ORM)

Tools IDEs: Eclipse, Spring Tool Suite, Visual Studio Code, Git/GitHub, Postman

Concepts: OOPS, Multithreading, RESTful API Development, Authentication, CRUD Operations.

Internship

Full Stack Java Developer Intern – Besant Technologies

Jan 2026 – May 2026

- Developed responsive web applications using React.js, Spring Boot, and MySQL.
- Built RESTful APIs with CRUD operations and database integration using JPA/Hibernate.
- Applied MVC architecture, authentication, and software development best practices in full-stack projects.
- Improved application performance by optimizing backend logic, database queries, and ensuring efficient API response handling.

Projects

Cab Booking Backend System

Feb 2026 – Feb 2026

Backend cab booking API enabling ride booking, driver assignment, and status updates with role-based authentication.

- A secure, role-based cab booking REST API built with Spring Boot, Spring Security, JPA, and MySQL.
- It supports three roles — Admin, Driver, and Passenger — each with restricted API access.
- Passengers request rides, Admins assign drivers, and Drivers update the ride status to completed.
- **Tools Used:** Java, SQL, Spring Boot, Spring Security, Spring Data JPA, Hibernate, MySQL, Maven, Postman.

Employee Management

Mar 2026 – Mar 2026

- Employee Management REST API is a Spring Boot backend that performs full CRUD operations to manage employee records including name, email, department, and salary.
- It exposes RESTful endpoints to add, update, delete, and filter employees by department using Spring Data JPA Repository.
- Built with a clean Controller-Service-Repository architecture, connected to MySQL with Hibernate auto-managing the schema.
- **Tools Used:** Java, Spring Boot, Spring Data JPA, Hibernate, MySQL, Maven.

Clean-green-webapplication

Nov 2025 - Dec 2025

- Clean-Green is a citizen platform to report ecological hazards with geo-tagged locations and photo evidence.
- It features a gamified Eco Rank system — Apprentice, Green Citizen, and Eco Warrior — to encourage community participation.
- **Tools Used:** React 19, Vite, Leaflet, React Router DOM, Framer Motion, Lucide React, JavaScript

Education

Hindusthan Institute Of Technology - B.E. Computer Science and Engineering with CGPA: 7.85

2022 – 2026

Baren Bruck Higher Secondary School – Class XII with 65.5%

2021 – 2022

Government Higher Secondary School – Class X with 68.5%

2019 – 2020

Certifications

• Java Foundation Certification- Infosys Springboard

Aug 2025

• SQL Fundamentals Certification – HackerRank.

Jan 2026
